

*Where equipment
reconditioning is an art,
MONET MEDICAL, INC.*

The Reconditioned Option.

With government reimbursements at risk (*Modern Healthcare* Jan. 31, 2005, p.8.), private pay reimbursements shifting more and more to the consumers of healthcare and a host of other factors pressuring the healthcare industry's ability to maintain margins, Monet Medical would like to present *The Reconditioned Option*.

What would you say to a company that offers over 575 reconditioned, moveable medical equipment items that are biomedically tested, beautifully reconditioned and warrantied for a full year? What would you say to this company if it promised to maintain or improve your quality of care and *substantially* reduce your capital expenses at the same time?

The Reconditioned Option offered by Monet Medical, started in September of 2000. Founded by a veteran of the healthcare industry with over 20 years experience in health system management, capital asset management, healthcare provider, homecare and long-term care industries, Monet Medical stands ready to offer a *very* cost effective alternative to the often high cost of renting, leasing or purchasing new biomedical capital equipment.

Monet Medical has provided hundreds of facilities in the U.S. with warrantied, reconditioned medical equipment with **an average savings of 50 – 60%** off the cost of comparable new equipment items. How do we do this?

Monet Medical maintains a vast national database of hospital surplus equipment that can be drawn on in an instant to quickly locate specific medical equipment items needed / requested by healthcare facilities.

Biomedical testing and cosmetic reconditioning of each piece of equipment is meticulously completed by a staff of certified technicians and cosmetic reconditioners that simply will not compromise on the quality of their work.

By purchasing quality industry surplus equipment from hospitals and healthcare facilities across the country and working without compromise upon the founding principle of *our customers' needs first and always*, Monet Medical has the expertise to identify, acquire and biomedically / cosmetically recondition literally hundreds of different medical equipment items used in facilities nationwide.

We stand behind our work with our standard one year parts and labor warranty on every piece of patient-ready equipment we sell. Service issues that may arise after the sale are responded to immediately by our attentive staff. Any shipping charges related to warrantied equipment are paid by Monet Medical and back-up units are normally in stock for commonly sold items that may be needed immediately.

Next time proposals are needed for moveable capital medical equipment, large or small, we hope you will contact us and request a custom sales proposal. We look forward to further lending our Company's expertise and experience to your organization and providing the value found within *The Reconditioned Option*.

MONET MEDICAL, INC.

WHERE EQUIPMENT RECONDITIONING IS AN ART.

A cost effective alternative.

Thank you for the opportunity to further introduce the products and services of Monet Medical, Inc. We are able to source, biomedically and cosmetically recondition and resell a wide range of biomedical equipment such as: IV pumps, ventilators, fully electric hospital beds, anesthesia / vent units, patient monitors, defibrillators and a host of other certified, warranted capital equipment.

It is a pleasure to present our company information and we look forward to further lending Monet Medical's expertise and experience to your facility.

Please feel free to contact us about questions you may have, surplus equipment you would like to sell, or to request a specific custom sales proposal.

Phone: 801.955.7150

Fax: 801.955.4898

Email: andrew@monetmedical.com

MONET MEDICAL, INC.

WHERE EQUIPMENT RECONDITIONING IS AN ART.

Why choose Monet Medical, Inc. as your reconditioned medical equipment supplier?

- A viable alternative to the high cost of purchasing new biomedical capital equipment.
- Substantial reductions in capital equipment expenditures without decreasing the quality of patient care.
- Biomedically tested, warranted, reconditioned medical equipment for over 575 different types of moveable medical equipment.
- Assistance in maintaining balanced depreciation schedules and age of equipment when expansion of existing inventory is needed.
- Payment terms are net 30.
- Rent-to-Own payment options available.
- Immediate response to service issues that may arise after the sale. Shipping charges related to warranted equipment are paid by Monet Medical. Back-up units are normally in stock for commonly sold items that may be needed immediately.

Biomedically tested, warrantied capital equipment.

Every product Monet Medical carries is biomedically tested, reconditioned and warrantied to assure that it will meet industry standards and your expectations. We stand behind the equipment we sell. If you ever encounter service issues with your product after the sale, we will respond immediately to help you avoid costly equipment down time.

Once equipment is shipped from Monet Medical, 95-97% typically is successfully used without interruption by the end user during the standard one year warranty period (for ventilators 10,000 hours or 1 year).

Limited Warranty

Monet Medical, Inc. warrants to the original purchaser that this Monet Medical, Inc. reconditioned product will be free from defects in material and workmanship for a period of twelve months (or 10,000 hours for ventilators), from the date of its shipment from Monet Medical to the original purchaser. If this product proves to be defective, purchaser may return same to Monet Medical for repair or replacement, at Monet Medical's option. Monet Medical must authorize all returns in advance. The liability of Monet Medical under this limited product warranty does not extend to any abuse or misuse of this product or its repair by anyone other than an authorized Monet Medical representative.

MONET MEDICAL, INC.

WHERE EQUIPMENT RECONDITIONING IS AN ART.

We have had the opportunity to provide and service hundreds of facilities in the U.S. with reconditioned medical equipment.

Services based on integrity, quality and patient safety.

Monet Medical works with Bio-Med Engineering, Inc. for its biomedical service needs. Bio-Med Engineering, Salt Lake City, Utah has been providing Medical/Scientific Equipment services since 1990; their technical staff of 10 full-time technicians have over 120 years of combined experience.

Bio-Med Engineering, Inc. is a full service Medical and Scientific Equipment Services Company dedicated to providing high quality, professional service. Their integrity and professionalism insures complete customer satisfaction.

Bio-Med Engineering, Inc. performs services on many different types of medical and scientific equipment. There are over five hundred different types of devices that they service from Thermometers to Computerized Axial Tomography units, from IV Pumps to Hospital Beds, from ECG Monitoring to Patient Ventilators, from Centrifuges to Analyzers. Bio-Med Engineering, Inc. is a licensed and authorized service provider for over one hundred twenty-five manufacturers and distributors of medical and scientific equipment.

Bio-Med Engineering, Inc. is an affiliate of Medical Equipment Repair Associates - MERA, for Utah, Nevada and the surrounding area. MERA is the nation's oldest and largest independent medical equipment service organization. MERA has 70 strategically located service centers throughout the United States (and about 20 International service centers) and represents over 110 manufacturers and distributors on a nationwide (and International) basis. They are part of an elite group of equipment service providers that are dedicated to trustworthy and professional service.

Monet Medical and Bio-Med Engineering form a comprehensive and quality driven approach to medical equipment reconditioning. The benefits and quality provided to our customers has been well received for over a combined fifteen years in the U.S. health care industry.

A major contributor to Bio-Med Engineering's success is the knowledge it has gained from its diverse customer base, including:

- Hospitals
total equipment management programs
- Surgery Centers
freestanding and office-based
- Laboratories
clinical and industrial research
- Healthcare Practices
clinics, group practices, and veterinarians
- Global Charitable Foundations
- Equipment Manufacturers, Distributors, and Reconditioners

Business Philosophy

- Equipment services are performed in a circular model with our customers' needs in the center surrounded by integrity, quality, cost-effectiveness, and user/patient safety.
- We are a quality driven organization, therefore we only deliver quality service and support to our customers.
- Our integrity is never compromised. We will never put our values aside for the sake of making money.

MONET MEDICAL, INC.

WHERE EQUIPMENT RECONDITIONING IS AN ART.

Quality reconditioned medical equipment, from a source you trust.

By purchasing reconditioned medical equipment from Monet Medical, you can substantially reduce your capital equipment expenditures without sacrificing the quality of patient care. Patient care, in some instances, has increased with the purchase of reconditioned equipment for many U.S. hospitals.
